**The images shown are taken by a professional photographer using an SLR camera of only one sample sign from each sheeting, and may not represent alone, or in comparison, how drivers will actually see these signs at nighttime.

With more than 75 years of reflective sheeting innovation, 3M is proud to introduce the next-generation of engineer grade prismatic material.

3M™ Advanced Engineer Grade Prismatic Sheeting Series 7930 leverages Micro-seal technology helping enable uniform, workable, and durable prismatic sheeting for non-critical signage applications.

Advanced Engineer Grade Sheeting is available in a variety of colours and sizes designed for compatibility with conventional and select digital imaging methods to meet the needs of your application.*
